

Grammar- word search and task

LI

We are learning to write our sentences in a grammatically correct way.

SC

- I can recognise different grammar concepts and can use them in my writing.**

Activity:

Complete the word search attached. If you are not able to print just look for the words on your device.

Then for each grammar concept, find a definition and write an example.

This is just to help us revise some of our grammar lessons, we did not cover all of these but it will be a useful exercise to determine what we do and do not know going forward.
