

Primary 1 Week 3 - Numeracy and Maths Learning from Home

Numeracy			Maths	Daily 5 Minute Blast One or two per day!
<p><u>Doubles</u></p> <p>Make a doubles matching game -draw ladybirds with double spots on some cards and the totals on the others. Can you match them up? If you know your doubles to 10, begin to learn your doubles to 20.</p> 	<p><u>Making Ten</u></p> <p>See instructions below this grid.</p> <p>Optional Challenge: Write your number sentences as sums in your jotter.</p> <p>e.g. 6 cars in bucket and 4 cars out the bucket make 10 cars altogether. In your jotter, write this as a sum: $6 + 4 = 10$</p>	<p><u>Mental Maths</u></p> <p>We have been exploring addition within 10. We have been adding using counting on, keeping the biggest number in our head and using our fingers to keep track.</p> <p>We are building an understanding that if you swap the numbers round to add them together it doesn't make a difference to the answer.</p> <p>We are looking to build up our recall of these addition facts so that soon we will just know some of these answers without having to work them out.</p> <p>Mental Maths Train - click here When you go to the site, please select the '+ train' and then choose between 'up to ten' or 'up to ten - one more' or 'up to 25'.</p> 	<p><u>Money: Coin Recognition</u></p> <p>Have a look around your house for coins. Can you find coins for every value and lay them out in order?</p> <p>Organise a coin treasure hunt for your family in your house or garden.</p> <p>Make some coin rubbings using paper and pencil or crayon.</p>  <p>Coins Game - click here https://www.topmarks.co.uk/money/coins-game Play the sorting and ordering games.</p> 	<p>Counting forwards and backwards starting from different numbers - within 10, 20 or 30 and beyond.</p> <p>Finger patterns - show me number '6', show me it in another way.</p> <p>Number recognition -make number cards to 10, 20 or 30 and beyond. Jumble your numbers up. How can quickly can you read your numbers? Choose a number card and say the number before or after. Use a number line to help you if you find this tricky. <i>You will find number lines in the Files section of P1 Teams page.</i></p> <p>Sing the days of the week and the months of the year. https://www.youtube.com/watch?v=3tx0rvuXlRg https://www.youtube.com/watch?v=5enDRrWyXaw</p>

Making ten

Why not play this fun game to help you practise your number skills?

You will need...

- a pot – this could be a plastic bowl, cup or small bucket
- 10 small unbreakable objects – for example, coins, pebbles or plastic bricks
- a safe space to play (with nothing around that could get broken)

Set your game up by putting the pot in a safe area and taking 3 steps back.

Now, carefully throw your 10 objects into the bucket!

Let's do this!

Get ready to practise your number skills.

First, count how many objects landed in the bucket.

Now, count how many objects landed outside the bucket.

Next, say a number sentence to add both groups.
Eg. 4 in and 6 out of the bucket makes 10.
