

Extension Challenge: Create your own bar chart to represent the data in the table below. You can draw your own bar chart, use the template on the next page or create your own using excel on a computer.

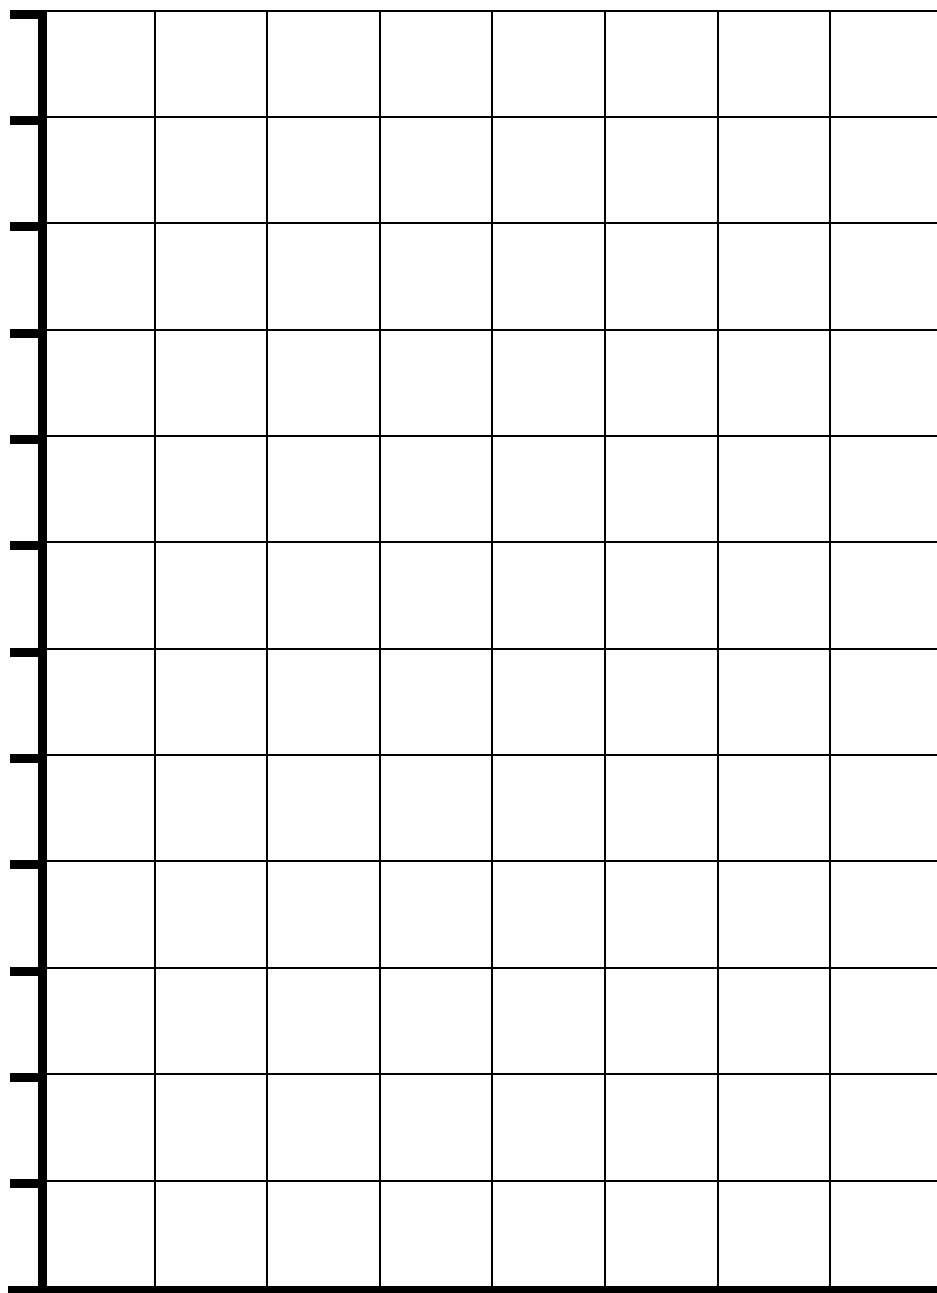

Remember to:

- Label your bar chart axis with names
- Decide on your scale (what the numbers go up in / how many boxes = 1 number)
- Label with numbers to show your scale

Number of swimmers who bought a ticket during each one hour session on Monday this week

Time of session	09:00-10:00	10:00-11:00	11:00-12:00	12:00-13:00	13:00-14:00	14:00-15:00	15:00-16:00	16:00-17:00
Number of swimmers	15	18	38	16	35	21	9	23

Label: _____
