

Sorting with a Carroll diagram

Carroll diagrams help us group things according to a yes/no system. Do the things you're organising have a particular feature (yes!) or not (no!)?

Can you sort these shapes into the Carroll diagram below?

	Has curved lines	Has straight lines
Has more than three sides		
Has three sides or fewer than three sides		

PARENT TIP!

Encourage your child to look at each shape methodically, thinking about the four criteria.

	 	Has three sides or fewer than three sides
  		Has more than three sides
Has straight lines	Has curved lines
