

Expressive Arts/ IDL/ Physical Wellbeing	Saying Goodbye to P4 and Hello to P5!
<p style="text-align: center;"><b>Art</b></p> <p>1) Make some greeting cards to send to family and friends. You might want to make birthday cards, thank you cards, a Father's Day card etc.</p>  <p>2) Use natural resources to make a nature mobile. You could find sticks, leaves, flowers and pinecones. Have a look on Google Images for some ideas.</p>  <p>3) Make a spinner board out of cardboard. Write down different activities you could do in the summer holiday when you get bored. Think of a range of outdoor, indoor, quiet and busy activities. Use a paperclip to spin and help you choose an activity when you need one.</p>	<p>Here you will find various activities which will help your child reflect on Primary 4 and prepare for moving into Primary 5. We encourage you to discuss a few of these activities together over the next couple of weeks or even in the Summer holidays.</p> <p style="text-align: center;"><b>Collage of Me</b></p> <p>Create a collage which expresses yourself and your experience in P4. It might include your favourite subjects, topics, sports, your friends and teachers. You can use drawings, painting, photos, magazine/newspaper cut outs, coloured paper and words.</p> <p style="text-align: center;"><b>Looking Back and Thinking Ahead</b></p> <p>1) Reflect on your favourite memories of Primary 4. There are two worksheets and you can choose to complete which one you prefer (<i>PDFs called School Year Memories 1 &amp; 2</i>). Try really hard to remember what you have done in school in P4. You can decorate the worksheet once you are finished.</p>

**Physical Wellbeing -Online Activities**

**1) Dance Challenge**

Watch the video <https://imoves.com/home-learning/1546> and follow along.  
You could create your own dance as an extra challenge.

**2) Yoga Challenge**

<https://imoves.com/home-learning/1330>

**3) Mountain Bike Challenge**

<https://imoves.com/home-learning/723>

**IDL**

1) Let's plan a holiday! You are going to plan a trip to Disneyland Florida for your family. Follow the fun tasks on the PDF to help you. You could watch your favourite Disney film as a treat when you are finished.

**2) Roll a Goal**

Think about a personal goal you would like to achieve in Summer, or a school goal you would like to achieve in Primary 5.

Make a dice using the template PDF. On each side of the dice, write down something that will help you achieve that goal.

E.g, My goal is to get better at football.

On my dice, I might write: 1) Watch a match. 2) Practise passing with someone in my family. 3) Practise scoring goals. 4) Do some exercise

**3) Dream Recipe**

What is your dream job when you are older? Think about what your interests and skills are.

Write down a 'recipe' of what you need and the steps you will need to take to achieve your dream. You might need to do some research about your chosen job to help you.

2) Plan an Afternoon Tea

I think you will agree that your parents and carers have been fantastic in supporting you in your learning and wellbeing during lockdown. Your task is to say thank you by planning an Afternoon Tea for them. You could make invitations and decorations. Think about what sandwiches, cakes and hot drinks you could serve. You can be the waiter/waitress for them as it is their treat!

Science

1) Try out some gardening. My favourite plant to grow is a Sunflower as they can grow very tall if you take care of them! Plant a seed in a small pot or even a yoghurt pot with soil. When it is ready, move it outside to a bigger pot or plant in the ground. Measure and record its height every week.

4) What was your favourite book you read in Primary 4? It might be something in our class library that you enjoy reading in relaxation, it might be a book you have chosen for AR or reading at home, or it might be one of our class novels we have read together.

Make a poster about your favourite book including the title, author, illustrator, a short blurb and why you liked it.

5) Write an end of year message to your class. You might want to tell them your favourite memory and wish them a nice Summer. You could tell them what you are excited for in P5. This could be written as a letter or filmed as a video message and posted to Teams.

6) I'm sure you are very excited to meet and welcome our new Headteacher to Burnbrae!

Why not make a Welcome Pack to help her in August? Think about all the things she would need to know about Burnbrae and how you would like to present this. You could make...

You might need to tie it to a cane as it grows tall.

2) Research a famous scientist or inventor. Answer the following questions:

- What is their name?
- Where and when were they born?
- What are they famous for?
- Why is the invention/discovery important to us today?

- A leaflet with a front cover and topic headings
- An A-Z poster of Burnbrae (e.g., "A is for Atriums. In the atriums we can use computers, play games and work in groups outside of the classroom")
- A video message of you welcoming her and explaining things
