## Dice Addition or Subtraction

Players: 1+

## Addition

Set a target that you want to add up to, for example 30. Take it in turns to roll a dice. Add each dice roll onto your score. The first person to hit the target is the winner.
Subtraction
Like the addition game, but you set a target and work down to zero.
You can make it tricker by using bigger dice, for example an eight or ten sided dice. You can find these as well as a six sided die at: https:// freeonlinedice.com/

| Dice Roll | Total |  |  |  |
| :--- | :--- | :--- | :--- | :--- |
