

## Staff Profile

We love toasting marshmallows over a fire!

I have two little boys, Archie who is 6 and Fletcher who is 3. As a family we love visiting the beach and exploring the woods to discover dens and fun places to play. We also enjoy going on bike rides together, although I need a bit more practice in cycling up hills!

We have a goldfish at home called Popper and would really like to own a dog one day. My favourite food is pizza and I enjoy watching movies with my family at the weekend.

I love working with children and watching their faces light up with excitement when they learn or do something new! I am looking forward to meeting all the new Primary 2 children in August.

### Play, Grow & Learn Together

#### Play - What makes you feel happy?

Spending time with my friends and family makes me happy. Being outside in the warm sunshine always brightens up my day and makes me feel good.

#### Grow - What do you wish you were better at?

I wish I could get better at waking up in the mornings! I love spending time in my garden but would like to be more successful at growing plants and flowers.

#### Learn - What do you enjoy learning about?

I love learning about science and how things work. I particularly enjoy making new discoveries with the children in my class as well as my boys at home.
