

## P1 Additional Home Learning Task – Space Topic

In P1 this term, we are learning about Space. Below are some activities that you could do at home too.

- Talk about activities that you do during the day. For example, have breakfast, get dressed, go to school, etc. Try to talk about activities that you do at different times of the day.
- Talk about your night time routine. What do you do before you go to bed? What time do you go to bed? What do you notice about the sky when it is bedtime?
- Talk about when the sun rises and when the sun sets. Is it light outside when you get up in the morning? Is it dark outside when you go to bed or perhaps even earlier? Has this changed at all since you started P1? Why has this happened?

### Craft Activity

We have been talking about Space at school. We know that Astronauts travel to Space in a spacecraft. Why not design your own spacecraft? You could draw a picture or make it out of playdough or junk materials. Be as creative as you like! You could upload a photo on Teams to share with the P1 teachers if you wish. Remember to only upload photos on your own Home Learning assignment page so that only your teachers can view them.

Happy crafting!

The P1 Team
