

01 April 2021

Dear Parents and Carers

Just a brief newsletter to wish you all a happy holiday and to thank you all for supporting us so well this term.

Thank you to parents and carers

All children are settled and enjoying being back in nursery. They are busy learning through their play. There have been more transitions for children than usual over the past year. There have been two lockdowns and children have had a different year. Between us in the Mayfield Nursery School community families and staff have supported children to manage these transitions. This is supporting children's developing resilience. This helps all children manage things that are different. Well done to you all at home, what a huge difference you make.

Thank you also for continuing to take the public health measures so seriously. Every time you:

- Wear a face covering at drop off and collection time
- Stand 2m distance from other adults
- Wash your hands when coming in from outside and support your child to do this
- Get your child or yourself tested if you have one of the COVID-19 symptoms
- Follow the self-isolation guidance

This helps us all stay safer and means we can keep the nursery open for our children.

All staff join me in saying thanks to you all.

Public health COVID-19 information to parents/carers, staff and pupils

Please read the attached letter from the Health Protection Team reminding us how to stay safe during the holiday period. Following this advice will help ensure that we can all remain safe and keep our nursery open.

Easter Holidays

At the end of today the nursery closes for the Easter holidays. We will return on Tuesday 20th April and look forward to seeing all of you then.

Wishing you all well, and stay safe

With best wishes for a peaceful Easter

Lisa Barnes and the Mayfield Nursery School staff team
