

Nursery Home Learning Activities

Twinkle Twinkle Little Star

Twinkle Twinkle

*Twinkle, twinkle, little star,
How I wonder what you are.
Up above the world so high,
Like a diamond in the sky.*

Singing

Have fun singing or saying the rhyme together. Make your own actions for the stars twinkling in the night sky. When you talk about up above, reach up high. You can be as dramatic and expressive as you wish., high and low.

Make your own stars

You could draw them and cut them out. Can you make stars in different sizes and patterns? Perhaps you could make them out of different materials. You could try play dough or salt dough. Why not make some star biscuits and ice them. Remember to seek out the opportunities to develop their vocabulary and their understanding. Describe the stars you made. Are they stripy, shiny, sparkly, smooth, zigzagged, soft etc? Which one do you like the best and why? Can you make one that looks like a diamond in the night sky? This is great for learning about properties and scientific language. Try sticking tin foil onto card and then cutting out star shapes. You could make patterns with a pencil on the foil. How many stars do you have? Count them together, touching each one as you say the number.

Talk about stars

Where and when will you see them? Use this as an opportunity to enrich your child's language and to have conversations.

Feeling energetic?

Why not do some star jumps! See how many you can do, counting as you go.

Make a rocket ship

Why not create your own rocket ship together to fly to the stars. You could make this from old boxes, plastic containers, scrap materials and other bits and bobs you can find. Cutting, creating, designing, imagining and inventing are all great learning opportunities. Where will your rocket ship travel to? Will there be a count down... 5, 4, 3, 2, 1, blast off?

Why not make a spaceship from your sofa cushions and other bits and bobs

A spoon may be a gear stick or a colander might be a part of the control panel. Use what you have around the house. Pretend you are an astronaut on a mission. This creative activity is great for encouraging them to make up stories, be imaginative and enrich their language.
