

P7T had a visit from our Digital Technologist this month. They had an introduction to Micro:Bits and are very excited to use them again!

P3K have enjoyed completing the daily Wordle. We discovered a new website called "Spellie". We tried it out this month as part of our literacy carousel! There was lots of challenges and problem solving going on!

P2J have been enjoying using Read Write on their iPad during their Learning through play. They are been using the Talk & Type tool to research on Google and write on a word document.

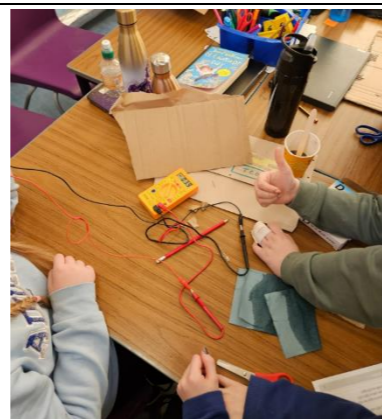

P3 have completed a KWL on Jam board to introduce their new topic, Space. We attached post it notes to discuss what we already know about space, what we would like to find out and how we would like to research this.

Digital Drop

February Edition

P4 have been exploring the coding program Scratch with Miss Paterson. They have been learning how to input different movement, sound and positional commands in order to create a short animation.

P6 have been taking part in their Climate Smarter Project. They have been measuring different types of renewable energy. They have used meters to measure how strong the sun and wind is. They have used technology to measure the electricity.

As part of their Digital Pupil Voice role, P7T visited P2J during their digital learning. They were helping P2 to explore Read and Write on their iPads.
