

Compound Sentences

A **compound sentence** is made up of two or more complete sentences connected by a conjunction (a joining word) such as **and**, **but**, or **so**.

Tom walked through the haunted house, but he wasn't scared at all.

Create your own compound sentences on the lines below by combining a sentence from column A with one from column B and connecting them with a conjunction. You can use sentences more than once.

A

Jan went to the carnival.

Jan wanted to ride the roller coaster.

Jan played arcade games.

Jan tried to win a stuffed bear.

Jan started to get hungry.

B

She had a great time.

She rode on all the rides.

She didn't have enough money.

She didn't stay for long.

She stood in a long line.

It started to rain.

She won a kewpie doll.

She bought a hot dog.

example Jan went to the carnival, but she didn't stay for long.

1. _____

2. _____

3. _____

4. _____

5. _____

6. _____

Real-life Maths

I think of a number, then subtract 12.

The answer is 26.

What was my number?

Real-life Maths

A spider has 8 legs.
How many legs do 5 spiders have?

Now work out how many legs 6 spiders have.

Real-life Maths

A box holds 35 nuts.
How many nuts are left if you eat 17?
How many nuts are there in 3 boxes?
How many boxes are needed to hold 70 nuts?

Real-life Maths

There are 19 books on the top shelf and 32 books on the bottom shelf.

24 of the books are removed.

How many books are left?

Real-life Maths

There are 18 apples, 21 pears and 19 bananas in some boxes of fruit.

How many pieces of fruit are there altogether?

Real-life Maths

I think of a number, double it and add 5.

The answer is 35.

What was my number?

Real-life Maths

I think of a number, then subtract 18.

The answer is 26.

What was my number?

Real-life Maths

A beetle has 6 legs.

How many legs do 9 beetles have?

How many legs do 15 beetles have?

Real-life Maths

Kate has 38 toy cars.

John has half as many.

How many toy cars has John got?

Real-life Maths

A box holds 70 biscuits.

How many biscuits are left if you eat 17?

How many people can have 5 biscuits each?

How many biscuits in 6 boxes?

How many boxes needed to hold 200 biscuits?

Real-life Maths

To cook rice, you need 5 cups of water for every cup of rice.

You cook three cups of rice.

How many cups of water do you need?

Real-life Maths

There are 129 books on the top shelf.

There are 87 books on the bottom shelf.

I remove 60 of the books.

How many books are left?

An Introduction to Manatees

Read about manatees, then answer a few prompts.

Manatees are also known as sea cows. They are mammals that live under the water. They rise to the surface to breathe oxygen. They live in shallow water, usually less than 7 feet deep. They eat plants, such as grass and algae.

There are three different species of manatees. One species called the West African manatee lives in Africa. A second species, called the Amazonian manatee, lives in South America. The West Indian manatee lives mostly in the Caribbean and the coast of the Gulf of Mexico but may move north during the spring and summer.

It is hard for scientists to know how many West Indian manatees there are. They estimate between 2,000 to 5,000. The West Indian manatee has been listed as an endangered species. This means that the population is so low that the West Indian manatee may become extinct. Many die because of accidents with ships or other human causes, such as pollution. Federal and state laws protect the manatee. Scientists are working to find ways to help the manatee survive.

Questions

1. How many species of manatees are there?

2. Where does the West Indian manatee mostly live?

3. What does "endangered species" mean?

4. What do manatees eat?

Manatee Facts

The manatee's closest relative in the animal world is the elephant and hyrax.

- Manatees average over 9 feet in length and weigh between 800 to 1200 pounds.
- Manatees may live 60 years or more.
