

St David's RC Primary School

Primary 6 - Home Learning 2021/2022

Literacy and English

- Choose a favourite poem to copy carefully in your best handwriting. Then, read it aloud using expression and rhythm.
- Flashcards – use the sounds/Fry words that your child has learnt, or they are currently learning (your class teacher has posted an explanation of those already taught to your Seesaw journal, dated the first of each month).
- Draw or take photos as set of instructions on how to prepare something from your Health and Wellbeing meal task. Use Seesaw to create a slide show with voice over explaining how to prepare this dish.
- Read for 20 minutes every day. Try to read a range of text types. Choose one text to write a book review.
- You have literacy activities as part of RE and Social Studies too!

Numeracy and Maths

- Create a poster based on learning in class to help teach others about a concept. For example: angles – types of angles, how to measure them.
- Practise your Basic Facts
- Make up a game that will help you learn one of the times tables. It can be a matching game, a card game, a game with counters or any other type of game you can think of. Focus on **multiplication**.

Health and Wellbeing

- Take some time to relax, breath deep and listen to some calming music or a gentle story
- Think about a healthy meal / snack. Prepare a healthy meal or snack – think about using equipment correctly and safely, measuring ingredients *i.e vegetable soup, carrot sticks and dip*
- Create a warm up for a PE lesson. Note the purpose of the warm up and explain the exercises you wish to include. Note how long you will spend on each exercise. Research and note down the muscles that we warm up for each exercise.

RE

- Research a Saint from the website below and create a poster and a fact file to show your learning. Create a word search or mini quiz for your class mates.
<http://www.wednesdayword.org/home/childrens.htm>

Expressive Arts

- Use any art resources at home (crayons, paint, pencils or pens) to draw the view from your window.

Science

- Lots of interesting topics to explore at <https://www.youtube.com/user/crashcoursekids> Choose one to watch, attempt at home and write up a report on your learning.

Social Studies

- Identify one 'natural' area near your home, like a park, field or woodlands. Imagine you have become the manager of this area and want to encourage greater public safe and pleasant shared use. Choose a media to create a persuasive advertisement.

Don't forget to post to Seesaw for teacher feedback and to Tweet your learning throughout the day! @stdavidsPS_ELC
