

At Early Level we expect the children to develop these skills:

With support I can

- observe
- describe
- begin to make connections with events and the world around me for a given purpose and with increasing detail.

I can compare a range of sources

*Sources: objects, pictures, artefacts, written text etc

I can talk about/ ask questions to find out where/when objects have come from.

Through visits and visitors I begin to see my place in the wider community.

I can share my learning with others.

I can answer and ask a simple question about a topic.

I can create a simple timeline of my life with adult support.

I know the sequence of the days of the week and can plot some significant events in the sequence
