

Home Learning Grid Template

You will find all resources for the following tasks in the Classwork tab. Although we would love everyone to engage fully with Google Classroom activities, please do what works for you as a family. The suggested days for literacy and numeracy tasks (and any 'deadlines' that appear on assignments) are only guides to help you manage your child's work.

Please remember that you do not have to print these resources out, they can be completed on a piece of paper.
