

Information for Parents - Outline Plan for Learning and Teaching

Topic / Project Title: Local environment

Languages

Reading: We are continuing to focus on our reading comprehension skills and deepening our understanding of text and author's style.

Writing: We will work on creating leaflets to share our learning of the local environment. We will be looking at using headings and subheadings and making the leaflet eye catching and engaging.

Listening and Talking: Children will continue to discuss and ask questions from topics that arise during daily Newsround viewing.

Spelling and Grammar: Each week we will focus on a specific spelling rule and children will be able to select words from two lists which they think will be most meaningful to them.

French: We will look at French vocabulary for clothing and use our knowledge of colours to describe clothing in French.

Expressive Arts

Art-The children will be working with the art specialist to develop their creative skills.

Social Studies

Children will be exploring their local environment looking at the different businesses and organisations and how they support the community.

They will also be exploring key features of the environment and selecting one to draw or create a model of.

Children will also be practising their mapping skills and will be given the opportunity to produce their own map.

Health & Wellbeing

PE: Children will be continuing to attend weekly swimming lessons. In school the focus will be on gymnastics.

Rights Respecting Schools: Children will continue to develop their knowledge of the UNCRC and we will link this to daily viewings of Newsround.

Our Local Environment

Mathematics

Numeracy: Children will be learning about fractions including the correct notation, equivalent fractions and fractions of an amount. We will also be applying our knowledge of addition, subtraction, multiplication and division to word problems.

Mathematics: Children will be looking at the properties of 2D shapes, identifying lines of symmetry and completing tiling patterns. We will also be learning about compass points and rotating clockwise and anti-clockwise in degrees.

Technologies

Children will be given the opportunity to cook as part of a small group.
