

Information for Parents - Outline Plan for Learning and Teaching

Topic / Project Title: Climate Change/Christmas

Context relevant to the children: Focus on the small changes that we can make to help our World.

Languages

Reading: We will develop our comprehension skills using our personal reading books and group reading books. We will look at making predictions, author's craft and inference.

Writing: We will be focusing on persuasive writing and the techniques used to write an effective persuasive text.

Listening and Talking: We will continue with our weekly listening activities.

Spelling and Grammar: Each week we will revise a spelling pattern. Spelling words will be uploaded on see-saw to practise at home.

French: We will learn through song and role play.

Expressive Arts

Art: We will be using different materials, including recycled materials, to make and design winter and Christmas themed crafts.

Health & Wellbeing

Health: We will be continuing with our Emotion Works programme focussing on our emotions and ways we can respond to conflict and negative emotions.

PE: We will be working on fitness and circuits. We will have activity breaks throughout the day in our classrooms too.

Rights Respecting Schools: We will continue to look at the UN Convention on the Rights of a Child (UNCRC) and the articles included. We will continue to refer to our class charter and school values

Mathematics

Numeracy: We will be focussing on multiplication and learning all of our times tables. We will also look at two digit multiplication.

Mathematics: We will be working on telling the time. We will read analogue clocks minutes past and minutes to the hour. We will use our knowledge of time to read timetables and complete time word problems.

Mental Maths: We will continue to develop our mental maths strategies and complete mental maths activities including word problems.

Climate Change

Technologies

We will continue to build on the use of ICT to support learning. Children will be encouraged to use see-saw to upload examples of their work. We would also like children to share achievements from home on see-saw.

Climate Change/Christmas

We will continue our work on climate change by looking at renewable energy and fossil fuels.

We will also be looking at Christmas around the World as well as exploring, in more detail, Christian traditions.
