

Information for Parents - Outline Plan for Learning and Teaching

Topic / Project Title: Rights and Responsibilities

Context relevant to the children: The children will learn about their rights through the UNCRC. They will think about what it looks like for them to have these rights and how to make sure everyone can enjoy their rights.

Languages

Reading: We will be reading our class novel together. We will identify the main ideas of the text by asking and answering questions. We will also read aloud in our reading groups.

Writing: We will be writing about our experiences in day to day life through diary entries.

Listening and Talking: We will be developing our listening and talking skills in discussion groups where we ask and answer questions.

Spelling and Grammar: We will be learning new spelling patterns each week. We will be continuing to learn about writing in sentences.

French: We will develop our confidence by listening to and responding in French during daily routines.

Expressive Arts

The children will be building on their ability to express their thoughts and feelings through Art. They will be responding to Art and Music with their opinions and learning how to give and receive constructive criticism respectfully.

Social Studies

As we learn about our own rights we will be learning about individuals in the past who have fought for the rights of others.

Health & Wellbeing

Health: We will learn about our rights in relation to health and what all children should have access to.

PE: We will be developing our fitness levels and refining our skills as we recognise the need to keep our bodies moving.

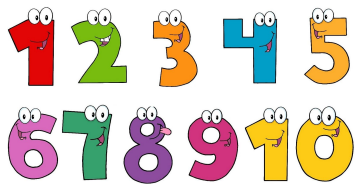

Rights Respecting Schools: We will be learning about what our rights are and how to make sure everyone has them. This will be reflected in our Class Charter.

Rights and Responsibilities

Mathematics

Numeracy: We will be practising and consolidating our number knowledge, ordering numbers, place value and the four operations (Addition, Subtraction, Multiplication and Division).

Mathematics: We will be learning to handle data in our Maths lessons.

Technologies

We will be considering the role that technology plays in our everyday lives and how it can help us to enjoy our rights. .

Homework
