

Outdoor Learning

The children have had great fun outside, applying their knowledge of 2D shapes to create amazing pictures and games.

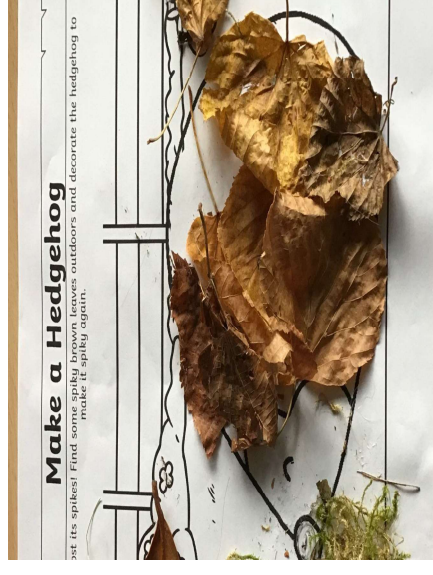

Phonics

We have been working really hard in Primary one on our sounds. We are learning to recognise, read, write and name things with all of the letters of the alphabet. We love making them in different and creative ways.

Numeracy

The class have enjoyed applying their knowledge of numbers within their play and have been creating their own number lines. We use our number lines to help us when counting on and adding.

Autumn and Harvest

We enjoyed spending lots of time outside during our topic this term. We looked for signs of Autumn around the playground, collected leaves and made our own artwork.
