

COP26

We worked on a project to design a habitat for the future. We have been working to design a sustainable habitat for a piece of derelict land in Glasgow near the SEC. Primary 6 are looking forward to presenting their ideas and designs.

Maths Week

We completed outdoor maths learning during maths week including a shape hunt, finding lines of symmetry, co-ordinate activities and lots more.

Novel Study

We completed our novel study. We enjoyed developing our reading skills and looking at the various characters in detail. We also looked at the style of the author.

Global Goals

We looked at each of the global goals and developed our understanding through small group activities and independent research. We thought about world problems and matched them to the Global Goals
